Kick off on 18 Feb 2016

Program fee: \$4800

Enrollment with early bird discount before 4 Feb 2016: \$300

Professional Discount (refer to para below): \$300

### *Why FSM Program*

Thank you very much for your interest in FSM. This is the only and only one of such program in Hong Kong!! Don't miss the chance to apply in time to enjoy the early discount and professional discount.

The program was first kicked off in 2013 with the support of the China Hong Kong Fire Protection Association (CHKFPA) and The Institute of Safety and Health Practitioners (ISHP) for the promotion of fire safety management. 12 evening classes will enable you to learn most of the technique, skill and knowledge in the fire safety management for your organizations or facility / property under your management. You will be able to draw up a fire safety plan with all the know-how taught in the program within 3 months. It is most suitable for professionals with the will of enhancing and updating their skill and knowledge on fire safety management, such as building architects, property / facility managers, security managers, property or site engineers, safety and health professionals for building management and construction and related consultants.

We have by now 165 fellow students participated in this program. Most of them are with 10 to 30 years working experience in their profession as estate managers, property engineers, registered safety officers, registered safety auditors, consultants, etc. 50 percent of the participants are sponsored by their organizations, such as Hong Kong Housing Authority, CLP, MTR, HK Airport Authority, etc. The others are from consultants, property or facility managements, and construction companies, etc.
